Education

Bipin Tripathi Kumaoun Institute of Technology — **Dwarhat, Uttrakhand**

Bachelor of Technology - Computer Science and Engineering — *2023 – 2027*

Achievements

- Won 1st place at BrainBytes Hackathon (2025)

Experience

Satsearn.app — **Remote**

Founding Engineer — *Mar 2026 – May 2026*

- Acted as the Founding Engineer for a Bitcoin micro-rewards platform, driving core architecture and full-stack implementation.
- Integrated Bitcoin Lightning Network protocols to facilitate instant, low-latency microtransactions and automated Satoshi payouts.

Edvanta Technologies Pvt Limited — **Noida, Sector 62 (On-site)**

Full Stack Developer Intern — *Jul 2025 – Sep 2025*

- Worked on Adobe Experience Manager (AEM) to support and execute the migration of foreign websites.
- Collaborated with cross-functional teams to ensure smooth data transitions and responsive design implementation.

Projects

Nayamitrr – Legal Chatbot Assistant | *MERN Stack, Gemini AI Integration*

- Designed and developed an AI-powered legal chatbot to assist users with legal queries and personalized legal planning.
- Implemented features for legal document generation (e.g., FIR, RTI), interactive cyber law quizzes, and chatbot-driven legal advice.
- Ensured a responsive and user-friendly interface with secure backend API integration for real-time assistance.

Developer Mate – AI Mentor for Beginner Developers | *MERN Stack, Gemini AI Integration*

- Built an AI-powered mentoring assistant to support beginner developers with coding guidance, mental well-being checks, and problem-solving strategies.
- Integrated personalized prompt-based assistance, regular wellness assessments, and curated solutions to common learning challenges.
- Implemented secure chat-based interface with user session tracking and intelligent feedback for enhanced learning experience.
